M.B.A. Finance / University of Massachusetts, Lowell

Jan. 2025 – Present | 3.35 gpa

B.Sc. Business Administration (MIS & Finance) / University of Massachusetts, Lowell

Sep. 2019 – Aug. 2024

Dual concentration: Finance, Management Information Systems.

EXPERIENCE

Supply Chains Analytics Intern | Vinayaka Flowers

March 2026 – Present

- Developed reporting infrastructure to centralize order, product, and sales data, improving data visibility and supporting more timely operational decision-making.
- Reconciled sales and operational data to identify discrepancies, improve data accuracy, and support more reliable reporting for purchasing and operations teams.
- Designed data models for products, orders, and transactions to improve reporting efficiency, streamline workflow, and strengthen the reliability of management reporting.

Prvaaha.com | Founder

February 2026 – Present

- Founded & built a financial research platform tracking 423+ NSE/BSE equities, providing retail investors with a live screener, multi-timeframe price charting (1D-1Y) and other investment tools.
- Applied equity research & financial markets knowledge to design analytical tools — sector filtering, market cap-ranked sorting, & OHLC charting - mirroring workflows used by professional investors.
- Curated & automated a financial news aggregation pipeline sourcing from 20+ financial media outlets, delivering 900+ categorized articles to support informed investment decisions, using Supabase Edge Functions to auto-fill data tables with news feeds.

Retail Banker I | TD Bank, Woburn, MA

September 2024 – April 2025

- Managed client account servicing & sales support using Salesforce, Odyssey, and Encore, assisting with account openings, lending products, and financial service recommendations.
- Maintained compliance with federal banking regulations, reviewing transaction activity & supporting internal audit procedures.
- Identified cross-sell opportunities for deposit accounts and CDs, contributing to branch referral and sales targets.

PROJECTS

Internal Controls Review | Vinayaka Flowers

- Conducted an internal controls walkthrough of the cash receipts process at Vinayaka Flowers, documenting the flow of customer payments from collection through deposit & recording.
- Identified key financial reporting risks within revenue cycle, i.e. unrecorded sales & deposit discrepancies, Evaluated control activities over cash receipts, including receipt documentation, deposit procedures, & reconciliation of sales records to bank deposits.

Accounting & Finance Operations | Vinayaka Flowers

- Maintains the general ledger in QuickBooks for Vinayaka Flowers, ensuring financial records were accurate and up to date. Regularly reconciles bank statements with recorded revenue & expenses to support clean month-end accounting.
- Assisted with payroll processing on ad hoc basis, helping ensure timely & accurate employee payments. Supports ongoing accounting operations for Vinayaka Flowers by organizing transactions and improving financial record consistency.

Pricing Analysis | Portfolio Project

- Analyzed 10K+ B2B transactions across 50+ competitors using BigQuery SQL (window functions, LAG, ROW_NUMBER), identifying a 1.5% margin optimization strategy.
- Built a dynamic pricing dashboard with scenario modeling & data slicers, recommending volume discount tiers that reduced price-match risk by 22%.
